

# Creating Change!

Author: Gabriele Brennhaugen<post@ua21.no>

**(06.05.2008) The Tunza 2008 conference motto is "Creating Change". Each day will focus on a specific theme and the local and global environmental issues involved. The UN Millenium Goals will also be illuminated.**

---

The daily themes are:

- Energy - Fuelling our dreams
- Water - we all need it
- Biodiversity - The library of life
- Sustainable Production and Consumption.

Efforts are made to ensure that the themes coincide with the daily activities. "Learning by doing" is a basic principle for the conference.

You can ~~read~~ [download the overview of workshops and fieldtrips here](#) "Programme" main menu for more information about the selection procedures for your activities.
